Did you notice something missing from this month's issue of Everything Equine? If you said, "Articles, Just for Fun, Give-a-ways, and ads are missing.", you are correct! Ad sales allow for the articles and other features in Everything Equine. Ad sales are the reason Everything Equine is available free in your local equestrian store.

Don't let this be the last issue of Everything Equine! If you have something to sell or a business to promote, please consider advertising in Everything Equine.

## OLIVE ON MY MIND By: Half Vast Connie

She was young, a teenager, a child of the "streets". Her frame was thin from too many meals she didn't attend! She was beautiful with large olive green eyes so her name was more than appropriate, "Olive"! Her stomach was in the last trimester of pregnancy! She would more than likely give birth ALONE, in an environment dirty and unsanitary, less than sterile! She would possibly die if the labor was too difficult and complications arose without a soul to rescue her!

The father was a "traveling man". Responsibility was not his strong suit! I took her in for I was born on Earth Day and I am a child of the Earth with respect for all who walk her paths!

Olive had an easy delivery in the ER, a large wicker basket with soft towels. Olive was a black & white long haired cat. She had TEN toes and SEVEN babies. She was an excellent mother of, I suspected, her first litter! Olive was thin so I began a morning and evening feeding of her "children"! I mixed a concoction of dry kitten food, milk, and canned cat food! She had her own personal bowl of Purina Cat Chow but would wait patiently for her kittens to finish eating and then devour the food that remained! She stole a Ziploc bag from the sink that had the SMELL of pork chops & carried it into her young when I was a little late feeding them! I found cellophane from individual cheese slices lying beside her kittens. One day I found Olive BACKING across the floor, dragging with her teeth a FIVE pound bag of kitten chow to her waiting kittens!

There came the day for Olive and the litter to "move on"! I had twelve cats and Olive deserved her own home, her own saucer of warm milk, her own king size bed to sleep on at night. She deserved to be warm on cold nights, to be fat and lazy in the sun, to never again be stalked by the serial killer of cats, HUNGER!!!!

One must learn to be creative in the task of giving away kittens. I put two steel gray kittens in a cage together and sat at Tractor Supply in Arcadia. The heat index was 112 degrees- The cool air from the opening doors saved us from heat stroke! Always give away TWO at a time. Cats play together and they are companions when we are away! Also, DUH! You're getting rid of the litter faster! A lady came; I made her hold both of them for in that one tiny moment of hands and fur-the bonding is beginning! Wah-lah! Two kittens to a good home!

I then moved to Winn Dixie for more "victims" to take the kittens. I forgot to tell you that Olive had an absolute "look-alike" daughter. The two of them sitting together in the wire cage was an awesome sight! MARKETING at its very best! A very nice lady came out of the store and gave me a 5 lb. bag of cat food, a good deed that touched my heart! A young mother came and said she'd been wanting to get her three children a cat so Olive and kitten exited the cage into her car and I gave her the cat food!

I had three black kittens left, "triplets"! A couple came by and took all THREE! It took me 2 hours and it was pleasant, listening to people relate their cat and dog stories. I kept one of Olive's babies. She is off-white with gray ears, tail, and gray mask across her face and gray legs. She is "Olivia", who lives in the house with "Mocha", a generic-looking version of a Siamese cat. "Mocha" is a house cat due to her insatiable appetite for the covey of quail outside!

If Olive was to tell you a moral, I am sure it would be to be resourceful and persevere! It is hard for a cat to drag 5 lbs. with its teeth. Remember Olive when you are overwhelmed and find a task too difficult!

I will always have Olive "ON MY MIND". I wish her a long cat life. I loved her!

Note: In Fla. we kill 68 % of our cats and dogs. This is unacceptable! We must do better! In one month I saved 12 cats! What if everyone who reads this story would save 12 in 2010. If you would just spay one female cat of yours you could eliminate two or three litters in a year! Fix your male cats so they don't breed your neighbor's cat! Be responsible! Get a part time job for a couple of weeks if you don't have the money, and get your animals to the vet! How would you like to be cold and hungry and on the streets? Go sit at Wal-Mart and get rid of your litter—two at a time! PLEASE!

When the Great Spirit finished making the world and before He rested on the seventh day, HE made CATS...He saved THE BEST FOR LAST!

*Horse  
Tales*

### We Rent Horse Trailers!

We can refurbish your old trailer and make it look new. All kinds of repairs. Reasonable rates.

**HUMANE SOCIETY**  
— N A P L E S —

**370 Airport Rd N  
Naples, FL 34104**

Visit all the fine pets available for adoption!  
Adoption Center Hours:  
Tuesday and Thursday 11 a.m. to 7 p.m.;  
Wednesday, Friday, Saturday and Sunday  
from 11 a.m. to 5 p.m.

Leena is a 2-year-old terrier mix. She's a super shy dog and needs a very patient, loving owner. Her adoption fee is \$75.

All dogs and cats adopted from The Humane Society Naples come with a medical exam, vaccinations, sterilization surgery, county license, ID microchip and 30-days of free pet health insurance.

For adoption information, call 239-643-1555 or log onto our website at [www.HumaneSocietyNaples.org](http://www.HumaneSocietyNaples.org).

Incorporated in 1960, The Humane Society Naples is a private local non-profit animal welfare organization with the mission to provide shelter in times of need, locate lifelong homes, and promote responsible pet ownership through education, legislation and sterilization.

**Sugar Great Pyrenees**

Sugar is a sweet and gentle giant. She was a bit matted up when she came to us, but a volunteer worked on her for hours this past Saturday to make her coat clean and beautiful! She is about 5 years or so. Sugar does need weekly brushing to keep her coat from becoming matted, but this is a great way to bond with her! Sugar's adoption donation is \$100.00

## PONIES IN THE PADDOCKS

The objective of the game is to make more paddocks than your opponent. Take turns drawing a line between any two adjoining dots, horizontally or vertically. If there are three sides joined already, draw the fourth one to finish the paddock. Initial your pony and go again. The winner has the most ponies in their paddocks.

## How long can a horse live without water?

**Q:**

I would like to know how long a horse can live without water.

**A:**

Not very long. Typically horses cannot survive without water for more than 2 or 3 days. Keep in mind there is also water on and in feed that they may eat. So this time frame may vary depending on the feed they have access to.

Answer provided by Carey Williams, Ph.D., Equine Extension Specialist, Rutgers Cooperative Extension.

Horse tales is an area where original, unpublished works by local writers and artists will be featured. If you have a short story, poem, work of art or anything that you've created and are interested in seeing in print, please submit to Everything Equine.

Everything Equine provides this opportunity for children and adults alike to show their creative abilities and talents to the entire community. Please limit your submissions to horse related tales that coincide with an equestrian or farm oriented way of life.

## Horse Tales

Elizabeth Halperin, Age 10, Naples, FL

I would like to Thank all of you who helped plan Brooke Miller's Memorial Barrel Race. As always the Labelle Livestock club has always gone above and beyond to help make this day Wonderful. Without them I would not be able to continue doing this event every year. They donated \$200.00 added money to barrel racers, they supply us with the arena, insurance, lights, electric, volunteers, etc. and I am so very grateful to all of them. Our silent auction raised almost \$900.00, and the Brooke's Legacy Volunteers did a great job getting the items donated. Thank you for all your hard work. The Concession stand raised \$403.68. Thank you to everyone who helped out there too. The barrel race brought in \$1234.50. We had 106 riders. Bullpit ministries donated \$500.00. Thank you Mike. What a great day. Thank you all again! I couldn't do it without all of you.

*Tink Bechtol*

### Classified or Business ad?

Classified ads are for selling a tangible item. 2 photos of the same item can go in a LARGE or EXTRA LARGE classified ad. Two or more items can be listed in the same classified ad if it is text only (no photo) or if they are closely related and being sold together. (a pair of mules or horse w/ cart) Classified ads can not list business information. A web address may be listed in a classified ad ONLY IF more information about the item for sale is listed on the web site.

Business ads are for services, such as boarding, farrier or stud, and/or any ad that contains a business name or information.

# Equine Dental Maintenance

by Wallace Ward

Mr. Ward has been practicing equine dentistry and providing educational clinics in the USA & Europe for 18 years.

**He is now living and practicing in Florida. He uses hand tools verses power tools to shape and balance the teeth. By using a calm and gentle approach, Mr. Ward does not need to sedate the horses.**

## **When You Train or Ride Your Horse Is He:**

- resistant and tense in his neck and body?
- behind or above the vertical (the bit)?
- unwilling to bend to the left or right?
- moving with short steps?
- refusing/rushing fences?
- jumping with his back hollow?
- heavy on left or right rein or pulls the reins through your hands?
- does he flip or play with the bit?
- tossing his head?

## **Watch Your Horse Eat:**

- Is he slow?
- Does he wet his hay before he eats it?
- Do you find his hay in his water bucket?
- Does he take a mouthful of hay before going to his grain?
- Does he refuse to eat hard food?
- Does he dive his head into the feed tub, or eat with his head up?

If a horse exhibits any of these symptoms, he probably needs the attention of an equine dental technician before his behavior can be modified through training. Many horses are labeled difficult when they are simply trying to say that their mouths hurt.

**Now Practicing  
in Florida!**
